Hi Sissy,

I have updated the analytes for the organic parameters in the report. See attached.

Thank you for bringing this to our attention immediately and our apologies for the oversight.

Thank you Chris

I have an objection for the certification Status Organic Parameters list. Especially the compounds for method 525.2 I have provided you PT data for 2017-2019 for endrin, lindane, heptachlor, heptachlor epoxide, hexachlorocyclopentadiene with both methods 508.1 and 525.2. So I am requesting certification for those compounds with both methods.
Please update the below list of certification when possible.

Thank you
Sissy

Subject: 2019 CDPH DWRL Drinking Water Chemistry Lab Audit - Request for Corrective Actions

Importance: High

Good afternoon Sissy,

Attached is the preliminary report for the Chemistry Drinking Water Certification Audit that was performed on December 3 - 6, 2019.

Please provide the corrective actions, corrective action plan, and supporting documentation in response to the findings and recommendations detailed in the attached draft report before or by **January 30, 2020**.

Let us know if there are errors in the report. We will send out the final report and certificate within thirty days of our receipt and acceptance of a corrective action response.

Thank you and Happy New Year,
Chris
